BETTER TRADE RELATIONS

These Men Are All Interested in  
Boosting Bristol as Well  
As Canada

The first commercial delegation of its kind that ever visited Canada, composed of several members of the Bristol Chamber of Commerce, arrived in Edmonton this morning by the C. N. R. The visit of this delegation of Bristol's foremost citizens and business men is of great importance not only to the country as a whole, but each municipality that is visited, in that the impressions that they take back with them to the old country and impart to their countrymen and fellow citizens will do much in the way of affecting the attitude of those municipalities in the opinion of Britishers "at home."

That their impressions of Canada as a whole are nothing but very favorable could be seen at a glance as the Bristolites stepped from their private car, their faces beaming, and enthusiasm showing in every remark and gesture.

A delegation from the local board of trade, comprising President McGeorge, Secretary Fisher, the chairman of several of the standing committees, and others were on hand when the train pulled in and greetings of a very cordial nature were exchanged between the visitors and the local men. Getting acquainted was an easy matter, Mr. Arthur Hawkes offering much assistance by his cries of "introduce everybody to everybody else."

The tour is under the direction of Mr. Hawkes, who is the publicity agent of the Canadian Northern, and he has according to the members of the party, looked after their comfort in princely style.

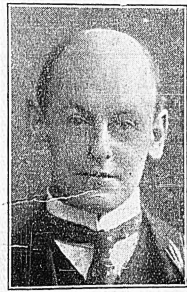

A street car, special with banners on each side, bearing the inscription, "Board of Trade Special," was standing on the First street track and soon all the party had boarded it and were off on a tour of the city.

The party had, as has been said, deep impressions of the country generally, but their impressions of the city of Edmonton appeared to stand favorable comparison as each new sight, typifying "industry, energy and enterprise," met their gaze. Every member of the party will certainly carry away a good opinion of Edmonton.

A visit to the packing plant, which is now becoming a local mecca, was made, and complimentary remarks were made about the industry. The party later returned to the board of trade rooms, and subsequently adjourned to the King Edward where a complimentary luncheon was tendered them by the board.

This afternoon some more sight-seeing will be done, which will include a trip to Strathcona. In the evening the party will leave Edmonton to seek impressions of the other cities and towns on the railway.

The visit is as follows: (Henry L. Riskey, chairman of docks committee, principal and founder of Henry Riskey & Son, insurance brokers and underwriters, Bristol was sheriff of the city of Bristol in 1905-6; associated with many movements for the development of Bristol's commercial enterprises. Ald. Colthrust has taken a keen and active part in the business life of the city, and has occupied a seat on the aldermanic bench for

Two members of the Bristol Chamber  
Commerce with a view to boosting the  
of Commerce, who have come to  
Canada-Bristol route.

## THEY'RE HERE TO BOOST CANADA—BRISTOL ROUTE

A Capital reporter interviewed Mr. Henry L. Riskey, who as Mr. Hawkes said, is the father of the party. Mr. Riskey stated to the reporter that all of the visitors were greatly impressed with this country.

"But," said Mr. Riskey, "you must not forget that we have come out here to boost Bristol as well as to gain a knowledge of this country. Mr. Riskey is evidently very proud of his native city for he characterized it as the most beautiful spot in old England. He spoke much of the magnificent new docks, which have been constructed in that city, which he contended were the finest in the world."

"What do you think of Canada?" queried the reporter.

"Stagnant—" "The country cannot go ahead without settlers," Mr. Riskey then switched to the topic of trade between England and Canada, expressing his sincere conviction that a great deal of it was to

pass through Bristol.

"The annihilation of distance, through the wonderful mechanism of today has brought the old world considerably nearer the new," he said. "Today it does not take any longer for freight between Halifax and Bristol than it does from Halifax to Winnipeg—and that comes from Canadians themselves."

"Evidently you are in favor of imperial preference," suggested the reporter.

"I will not say what I believe in," replied Mr. Riskey, "but I do say that Canada should be to England as a son is to a father, or a daughter to her mother. There should be a conference between representatives of each country, with party politics thrown aside, with the idea of arranging for proper relations between this country and the mother. Blood is thicker than water. We have the same blood in our veins as that which flows in yours, and we should look upon each other in a corresponding spirit."

"Do you think the all-red route suggestion will amount to anything?" "I am not interested in the all-red route at present. My interest centers around the Bristol-Canada route," concluded Mr. Riskey.

## DR. TORY RETURNS Tells of His Trip to the East— New Professors Are Coming Soon

Dr. Tory, president of the University of Alberta, returned from his eastern vacation trip yesterday. Dr. Tory says that he has had a delightful trip. Speaking of conditions in the province of Nova Scotia, Dr. Tory stated that everything had been successful this season with the exception of the apple crop. "There was a little frost at the time the trees were blossoming, that had a very bad effect," said Dr. Tory. "The other products, however, are excellent, while the wheat and oats compare very favorably with what we grow out here."

Dr. Tory stated that Professors Sheldon, of Yale, and Fairley, of England, appointed to the staff of the university would arrive about the 30th of this month.

## DOUBLE DROWNING

Peterboro, Sept. 8.—About 1 o'clock today a double drowning happened in the River Ouse, at a point called Dangerous, the victims being Mrs. Wm. E. Lang and her seven-year-old daughter. They were in a gasoline launch with two or three other members of the family, including the father. The launch was running close alongside the excursion steamer Oronough, when something went wrong with the steering gear, the launch colliding with the steamer and turning turtle. All were rescued except the mother and daughter.

## PLEADED GUILTY TO EIGHT CHARGES

Morris Pettipiece Charged With  
Eight Theft—He Is One of  
Dope Fiends Caught by  
Police

Morris Pettipiece, who with Johnson, Williams and Haughton were arrested for vagrancy and all of whom are "dope fiends," was formally charged this morning in the police court with eight different cases of theft during the exhibition week. He pleaded guilty to each one.

The list of the victims from whom Pettipiece stole is as follows: Ross Hovos, Chas. Hardware Company, the Douglas Company, Stanley and Ben. Colley, the Hub Cigar Store, Wm. K. Jolley and Peter McPhee and A. Archibald.

In each case a number of small articles were taken, these being discovered in large numbers in the room where the men slept in the Victoria Inn.

It is not likely that his associates will be charged with implication in the thefts as there has been no evidence to that effect, and Pettipiece has pleaded guilty.

Pettipiece came up from Calgary during the exhibition and cried to get work and found. Acting Magistrate Byers will pronounce sentence at 10.30 a. m. tomorrow.

## CARDINAL PROPOSED TOAST TO THE KING

Brilliant Luncheon to Cardinal  
Vanuelli Was Held in  
Montreal Today

PROMINENT MEN THERE

Papal Legate Praised King  
George As Being Fair to  
All Creeds

Montreal, Sept. 8.—Over three hundred guests, including most of the eminent public men and church dignitaries in the province of Quebec, attended the luncheon tendered today to his eminence Cardinal Vanuelli, the papal legate to the Eucharistic congress.

The luncheon was presided over by Sir Lomer Gouin, Premier of Quebec, and was given by the provincial government. Hon. Chas. Murphy, Hon. L. H. Bédard and Hon. Sydney Fisher were among those present. All prelates now visiting the city were invited, including Cardinal Logue and Archbishop O'Connell.

Cardinal Vanuelli proposed the toast to the King and spoke briefly, commenting on the spirit of loyalty prevalent among all classes of Canadian society. He paid a high tribute to King George and referred to the cablegram of greeting which had been received from that monarch as evidence of his disposition of fairness to all creeds.

Sir Lomer Gouin, in proposing the toast to the Pope, spoke at some length on the Eucharistic congress and its great importance as an historical event.

## AND THIS CLAUSE IS NOT ENFORCED

Estimates of Population of Cities  
and Towns Not Made  
Every Year

There is a clause in the statute requiring vital statistics, which demands of the secretaries of the municipalities in the province a return of the population, the said returns to be in the hands of the proper officials before the 31st of September of each year.

A Capital reporter made inquiries at the government buildings this morning with a view of learning the estimated population of Edmonton and Strathcona but was informed that the clause was not enforced.

## STILL ON STRIKE

Lathers and Executive of Contractors  
Could Not Reach an Agreement

The executive of the Edmonton Lathers' Union held a conference yesterday evening with the executive of the Plumbing and Lathing Contractors' Association to attempt to settle the present strike. The men were insistent on holding to the proposed rate of \$3 per thousand instead of \$2.50 and the contractors refused to consider their terms. They claim that in view of their standing contracts the rate is preposterous and would take a considerable slice off their profits. The meeting broke up without results being reached.

So far, no effect has been felt from the strike and the contractors will not make any effort to bring in the necessary labour in the hope that a settlement can be reached satisfactory to all.

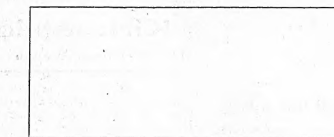

## MAY FACE ANOTHER CHARGE

Yor York, in Pen. for Six Months, is  
Wanted in Calgary

The police have discovered that Yor York, the man who was convicted of theft last week and who was sentenced to six months in the Alberta penitentiary, is a professional, and an old hand at the game. The other day the police received a message from Calgary to watch for a couple of gold watches which were stolen from a Calgary residence, and the description of the watches found on York at the time of his arrest tallied with the description sent by the Calgary department. It is now quite probable that when York completes his sentence he will have to answer another charge at Calgary.

## His Explanation

The following is the explanation sent to The Daily Capital by the ex-Minister of Public Works, in answer to yesterday's request:

## CRIPPEN INDIFFERENT AS HE SITS IN PRISONER'S DOCK

TRIAL OF THE NOTORIOUS DOCTOR PROCEEDING TODAY—EVIDENCE IN REGARD TO POISON PURCHASED BY CRIPPEN WAS GIVEN.

(Canadian Associated Press.)

There was more color in the Crippen case in Bow street police court today, Mrs. Harrison, a personal friend for thirteen years of Mrs. Crippen, said the latter had bleached her dark brown hair to a lighter shade. Some hair shown resembled her hair. That portion of an underwear found on the remains was similar to a garment Mrs. Crippen wore.

Evidence concerning the purchase of poison by Crippen was given. Inspector Dew then read a long statement made by Crippen shortly before his flight to Canada. It concluded: "My belief is that my wife has gone to Chicago to join Bruce Miller."

In court Crippen did not appear to be suffering from the strain of his

face and he was perfectly self-possessed. He folded the tails of his grey frock coat carefully over his lap and put his hands together.

The girl looked tearfully at Crippen several times. He chatted with her at the beginning of the proceedings as though trying to reassure her.

Solicitor Arthur Newton, on behalf of the defence, has received permission to inspect the remains of the body found in the Hilldrop Crescent house. It is understood that the examination will be made on behalf of the defence by two Medical experts. One of these is a pathologist and the other a well known analyst with a wide experience regarding poisons.

## CHARGE OF THEFT WAS DISMISSED

William Parkes Free Once More  
As Charge Could Not Be  
Substantiated

Judge Taylor in the Strathcona district court yesterday dismissed the charge of theft against Wm. Parkes. The case was charged with appropriating the proceeds of the sale of a team of horses in spite of the fact that a man named Brown had a half interest in the team. No witnesses could be found to substantiate the charge. In the case of Vogel vs. Clarke, the judgment was awarded to Vogel, who was suing for the payment of a note amounting to \$30 which had been given him by the defendant on the purchase of a horse.

Clark entered a counter claim for feed for the horse before the agreement of sale had been made, but his claim was dismissed and the defendant ordered to pay the full amount of the note.

## AUSTRALIA TO HAVE A TRANSCONTINENTAL

Premier Fisher Announces Intention of Government to Construct a New Railway

(Canadian Associated Press.)

Melbourne, Sept. 8.—Premier Fisher in the course of his budget speech announced that the government intended to construct a transcontinental railway at a cost of about four million pounds. He also extended a cordial welcome to the British immigrants.

## TORONTO'S LIBRARIAN SPEAKS IN LONDON

Teils Librarians' Conference of Value of Education in Empire Building

(Canadian Associated Press.)

Exeter, Sept. 8.—At the Librarians' conference here, Dr. G. H. Locke, chief librarian of the Public Library at Toronto, made an interesting speech on empire building. He said that Canada was more closely allied to the Mother country than ever before. This was due in a large degree to educational work.

## PRESS COMMENTS ON HAGUE AWARD

British Press Is Satisfied With the Settlement of the Fisheries Dispute

IS NEWFOUNDLAND'S GAIN

Her Mastery Over Waters Where Bait Fishes Are Obtained, Is Confirmed

London, Sept. 8.—Considerable diversity of opinion is expressed in this morning's despatches as a result of the Newfoundland fisheries arbitration awards.

Although the decision generally is held as a victory for Great Britain, the Standard, which was a strong supporter of the Newfoundland case, says: "Taken as a whole the decision should give satisfaction to Newfoundland, Canada, Great Britain and America. The main cause of friction has been removed and it will not be the business of politicians to keep old scores open. It is unfortunate that Newfoundland head waters are subject to foreign assessments, but we cannot give our fellow subjects more than we would ourselves."

A Solid Sense of Relief

The Graphic recalling the disputes over the fisheries case says: "The award will be received with a solid sense of relief. It inflicts no unreasonable hardships upon either side. If Great Britain gains the most important points, America wins the largest number and as the distribution is rendered more acceptable by the qualification providing for the fullest equities, it removes the last serious issue which has divided the American and British peoples, thus crowning the work of rapprochement."

The Post, commenting on the decision, says: "As usual neither side can claim a complete victory. If the verdict was not as favorable to British claims as could be hoped, the reason is found in the feeble character of the diplomacy of the Liberal government, when the controversy reached an acute stage."

The Chronicle declares: "The game was drawn, but in favor of Great Britain."

The London Times

"The Times has this to say with regard to the award: 'It is as we trust, the tribunal has disposed of this argument and sometimes embittered controversy, the achievement will not only be a remaining testimony of the merits of a general arbitration treaty, but will also be a valuable demonstration to the world what international arbitration may be expected to be the future to do. The British litigants have every reason to be satisfied with the award of the world.'

Newfoundland's View

St. John's, Sept. 8.—The decision of the international court of arbitration on the Newfoundland fisheries dispute is looked upon here as a substantial victory for the colony. The winning of point one by Great Britain means, it is pointed out, that Newfoundland will have full power to control all fishery legislation and make American fishermen subject thereto. Newfoundland's victory or question five confirms her master over all the waters in which bait fish are obtainable during the summer season.

## MORE AT HIGH SCHOOL NOW THAN EVER BEFORE

And There Will Be More Still by the End of the Year—Weather Affects Attendance

The attendance at the high school is growing very fast. It is now 75 per cent. of those who are from Edmonton, the remainder being from rural districts, and it is expected to reach 80 by the end of the year.

Such were the words of Supt. N. Calkin of the Edmonton schools when he said this morning. The weather is seriously affecting the attendance at the public schools in the lower grades particularly, but it is expected to be as soon as the attendance becomes normal the schools will be crowded to their fullest capacity.

Athletics  
The Ring  
WrestlingRUGBY CLUB  
HELD PRACTISEAbout 25 Players Were Out at  
Diamond Park. Only Light  
Work Indulged in

Despite the short notice, the Edmonton football club had a fine turnout at Diamond Park yesterday afternoon. Only the lightest kind of work was indulged in, as the majority of the players have yet to be supplied with uniforms. Passing, running, kicking and following up punts was the order of the day and after about an hour of this work, the players were all glad to stop. Another light practice will be held this afternoon at five o'clock, while on Saturday the management will endeavor to get two complete teams out for the first scrimmage.

Among those out last evening were Gibson, Barnes, Stacker, Murphy, O'Donoghue, Benjamin, Dykes, Kennedy, Parselle, Crickmore, Greenwood, Dawson, Connors, McDonald and about fifteen others. From present appearances there will be a multitude of good material and a much stronger team will be put on the gridiron than ever before.

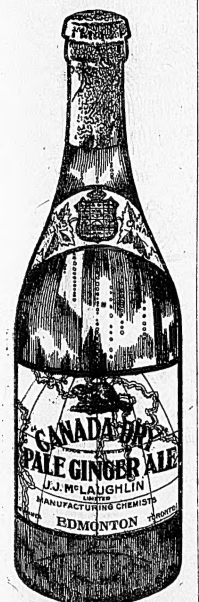

## WILL PLAY HERE

Calgary Calles and Lloydminster  
Meet in Edmonton Next Saturday

Calgary, Sept. 8.—The trustees of the Bennett-Sidd competition have decided that the final game will be played at Edmonton on Saturday next, the teams in the final are Calgary, Caledonians and Lloydminster.

Edmonton was decided upon for the advantage of both teams. It is half way between Calgary and Lloydminster, so that both teams will be created alike, as far as railway mileage is concerned. Edmonton also draws good football crowds, and this final game should be a good attraction.

Lloydminster is very strong this year, and it is expected that they will give the Calles one of the best and hardest games of the season.

CAPITAL CITY  
CURLERS MEETAnnual Meeting Drew a Large  
Attendance, May Double Their  
Rink

The annual meeting of the Capital City Curling Club was held last night in the Board of Trade rooms, and was attended by over 50 members and prospective.

The secretary treasurer's report showed that the club had a very successful season financially and came out with a balance on the right side of the ledger.

During the discussion arising out of the minutes of last general meeting it was decided to inquire if the Granite Curling Club would have any objection to the Capital City Club taking the old title of Edmonton Curling Club. This is to be merely a tentative inquiry as there is no immediate reason for changing the name.

President Fraser also stated that the old trophies of the Edmonton Curling Club would be collected and duly apporportioned between the two city clubs, the Capital City and the Granites.

The election of officers was then proceeded with, and resulted as follows:

Officers for 1910-11  
Pastor—Hon. C. W. Cross.  
Sec. Treas.—J. Webb.  
Executive committee—Messrs. M. George, Fraser, Charlesworth, Bell and Ald. Mould.

Umpires—Messrs. Campbell Young, and Kinnaird.

Rep. on annual committee Royal Caledonian Curling Club—President Turnbull.

Representatives Alberta branch of Royal Caledonian Curling Club—Messrs. Mould and McGowan.

Honorary members—D. Herbert, Ketchum, Thor, and Anderson.

On the retiring executive vacating the chair, Mr. Turnbull, the newly-elected chief executive, paid a graceful tribute to Mr. Fraser's organization work and a hearty vote of thanks was passed.

Royal Caledonian Spiel  
The next hospial of the Royal Caledonian Curling Club will be held in Edmonton and it is the intention of the local curlers to make it the most successful in the history of Alberta.

In previous years, this event has been held in Calgary, where the uncertainty of obtaining keen ice has had a bad effect on the attendance. Last year there were only about 40 rinks in attendance at the spiel, while at the "Twin City" hospial, held in Edmonton and Strathcona, 51 rinks participated.

Mr. Fraser was of the opinion that between 75 or 80 rinks would attend the hospial this coming winter, 60 being from outside points and 10 being from the city. Mr. Fraser, in his statement by Mr. McGowan. The latter told the meeting that when Edmonton was awarded the Royal Caledonian hospial at the meeting last winter, numerous slips from Macleod, Fernie and Cranbrook besides a strong Calgary contingent had signified their intention of being present.

Double the Capacity  
The discussion of the hospial led to the question of rink space and it was moved by Mr. Fraser and seconded by Mr. Martin that the Capital City Curling Rink Co. (which is a separate body from the curling club) be asked to build an addition on the adjoining lot, providing accommodation for three more rinks.

In the event of this being done, and from the vote of the members present there seems no question about it the membership of the club which is at present limited to 80 will be doubled.

The questions of buying ice for the adjoining lots to the present rink, and also the classification of rinks into sections A, B and C were discussed, but nothing definite was done regarding them.

With the impetus of the Provincial hospial being held in Edmonton there is no doubt this winter will be a busy one for the lovers of the roaring game.

THE INTERNATIONAL LEAGUE  
SHOULD BE GREAT SUCCESSIf the Right People Can be Interested in Butte, Helena,  
and Great Falls, There is no Doubt About  
the Alberta Cities

The season of 1910 has been a disastrous one for the Western Canada League, and there is not a club in the circuit which has come out better than even, financially. Even Calgary and Edmonton, probably the best ball towns of the lot are behind financially, and it is not hard to place a finger on the reason for the deficit. Travelling expenses eat up the revenues of the clubs, and it will be a matter of 10 to 15 years before a league, which contains Winnipeg and Brandon at one extremity, and Calgary and Edmonton at the other, can be successful in Western Canada. The time has come for Edmonton, Calgary and Lethbridge to break away from the eastern cities and strive to form another league.

A Good Suggestion  
About a month ago an article appeared in the Calgary Albertan, advocating an International League with the above mentioned teams, along with Butte, Helena, and Great Falls, all thriving Montana cities. The suggestion was enthusiastically received in this side of the border, and it is altogether likely the proposed league will be an assured fact by next spring.

President Middleton Agrees  
During the recent unfortunate Calgary-Edmonton series, the Capital interviewed President Middleton, of the Calgary baseball club as to his views for next season. Mr. Middleton is an enthusiastic advocate of the International League, and stated, in no uncertain words, that he was not counting on to take a franchise.

Mr. Middleton is leaving for the coast in a short time and when there will have a talk with President Lucas of the North Western League concerning the scheme. Mr. Lucas would be the logical man to organize the circuit and might also be able to undertake the office of president provided it did not conflict with his coast duties.

President Frank Gray and Manager White of the Edmonton baseball club are also in favor of a new league and think very highly of an International one.

Moose Knows Butte  
Moose Baxter, who hails from Butte, Montana, is in a position to give the true facts about the three cities and he is confident that they will provide a splendid American end or the league. "There are no better sports anywhere than the Montana sports," says Moose, "and if they can be interested in the formation of an international league they will sure see it through."

Butte is a red-hot baseball town, but up to the present it has been handicapped by the lack of a down town park. By using Columbia Gardens for Sunday ball, and providing a park near the centre of the city for the week-end games, Butte could easily be made the New York of the League. Moose went on to say that if Spike Haines of the Miner, McIntosh, of the News, and Moser, of the Anacosta Standard, could be got started on the idea, they could quickly interest such a leading group of influential fans and sports as Jerry Clifford, Mayor Nevins, Chief of Police Jack Quinn, Malcolm Gillis, Harry O'Gorman, Mr. Schilling, who are of the largest billiard and pool parlors in the state and is a great booster for all branches of sport, along with Lou Eckel and Charlie Lane. With the above men interested in the scheme Moose says there is no doubt baseball could be made a paying proposition in Butte.

Helena a Live Town  
When asked who would hold the things in Helena, Moose stated that Chief of Police Jack Flannery was a 33 degree fan and a great booster. Well-known in town he could quite easily get capital interested in a ball club to take a franchise in the league.

Great Falls is the location of the huge smelter which has an immense payroll. There is nothing the miners like better than baseball and they would support a team with great gusto. Though the smallest city of the three it is noted for its live sports and there is no danger of Great Falls being unable to hold its end.

A Compact Circuit  
Situated as they are, within reasonable distance of one another Calgary, Edmonton, Lethbridge, Great Falls, Butte and Helena, should make a tidy circuit and at the present rate the cities are growing, inside a few years they could be playing Class B ball.

Bill Lassi, Moose Baxter, Peter Morse and Slim Dell, have all played in the Montana cities and were unanimous in saying that if the right people could be interested over there, there would be no difficulty in forming the league.

MOOSE LEFT YESTERDAY  
Moose Baxter left for Calgary yesterday afternoon to take over his new bath house in the basement of the Alberta Hotel. Moose, in addition to all the latest appliances, will have eight separate and distinct varieties of shower baths, and guarantees to invigorate even the most weary of sightseers in the Southern city. He aims to make his smoking room the gathering place for all Edmontonians who visit Calgary, and promises them a hearty welcome.

COOPER IS SOLD  
Cottonport Cooper, Bill Morrow's star catcher, is due for a try-out in the big show. Washington will give the Brandon receiver a trial this season. Cooper has a magnificent throwing arm and is a good batter, but some of the W. C. L. players claim his head is solid bone.

ACCEPTS CAIRNS DEPT  
Mike Forney, pool champion of Winnipeg and the Northwest, has accepted Charles Cairns' challenge to all comers. Forney will play for any part of \$500 and the match will probably take place next week. Mike is well known all over the city as a clever, cue-expert and has many high runs to his credit.

CALGARY IN THE FINALS  
Toronto, Sept. 8.—In the semi-final game for the People's Shield, the Calgary football team yesterday beat Fort William, 2 to 0. Both goals were scored in the first half. The final game on Saturday will be played at Hamilton.

SCORES IN THE  
MAJOR LEAGUES

## NATIONAL LEAGUE

Giants Beat Boston  
New York, Sept. 8.—The Giants with Mathewson pitching defeated Boston today 2 to 0. The local rungs were both scored in the eighth, due to hits by Doyle and Snodgrass and a pair of errors by Sheen. Mathewson struck out eleven of the visitors.

## POTTS VS. BURT

Jimmy Potts will arrive in the city today and at once start active training for the fifteen round bout with Budd Burt, carded for September 16th. Burt is already hard at work and invites any of the talent interested to visit his gymnasium across from the Senate Hotel and witness his workouts. They take place every afternoon from 3 to 4.

Added interest is given to the coming fight, owing to the fact that fight promoters in Calgary are thinking seriously of matching Potts with Abe Attell. The Albertan, in speaking of the proposed match says that Jimmy would be far more of a match for Abe than either Merino or Lauder. But they will have to wait until after the 16th.

## A GOOD PAPER

The August number of "The Athletic World," a new name for "Outdoor Canada" Magazine, has just been received at this office. Since this publication was taken over by W. J. Taylor, Limited, Woodstock, Ont., each issue has shown a marked improvement over its predecessor. Its change of policy to that of a national athletic periodical is this month carried out both in name and nature. Besides the change of title the size has been increased, and the contents augmented. Judging by the August number, full of the kind of up-to-date reading pertaining to things athletic, a conspicuous place is assured "The Athletic World" among the leading Canadian national publications.

SAM HUESTON IS  
MAKING GOODHeld His Opponents to 8 Hits in  
11 Innings, Had 10 Strike Outs  
and Issued no Passes

Pitcher Sam Hueston, who wore Regina and Edmonton uniforms this season, and was recalled by Des Moines, has been making a big success in class A ball. In a letter to Deacon White, Sam encloses the following clipping from the Des Moines paper, headed "Champs Fail to Climb Ladder." It says:

St. Joe has visited Des Moines twice in the past two weeks and the "Champs" are still holding down seventh place in the Western standing. Yesterday's defeat at the hands of the Drummers in the first game and a tie-up in the second, about sealed Des Moines fate and they will probably never get out of seventh place with the last road trip but a few days away.

The first game was a hard luck proposition all the way through, for Hueston, who pitched gilt-edged ball and should have had a victory with the proper kind of support, but was lost after 11 innings battle, 2 to 1. The little Missouri twirler besides being pined against Johnson who has been pitching great ball, had to carry the entire Des Moines aggregation on his shoulders and by magnificent pitching fought off the results of the "Champs" six boots for 11 innings, but could carry them no longer.

Eight hits scattered over 11 innings and to strike-outs and two to one defeat with six errors behind him, certainly stamps Hueston as a coming pitcher and it is quite likely that Hueston will keep a string on the young star.

St. Joe's first run came in the seventh on errors by Niehoff and Claire and a scratch hit by Reilly. The other run came in the eleventh on two scratch singles and an incurable error by Kersey the new second baseman.

Deacon always claimed that Sam Hueston came very near being the best pitcher in the Western Canada League, and his work bears out the former manager's statement. It also shows that the class D ball of the W. C. L. is not so terribly slow or bushy.

## WEATHER SIGNS

It is curious what a number of quite competent amateur weather prophets there are dotted about the country; especially curious when one reflects how incompetent sometimes are their professional rivals. It is a remarkable thing, but the more trouble a man takes to ascertain tomorrow's weather, the less success does he seem to enjoy. The man on whom one can really rely is the man who "has a sort of feeling which he can't explain." Weather prophecy is an instinct with some people, and, curiously enough, they are nearly all pessimists. You rarely find the optimistic prophet. It is usually, "I don't like the look of those clouds. The weather's going to break!" or "See! The smoke is blowing downwards. Sure sign of rain." Quite illogically, one feels a grudge against the pessimistic prophet if his predictions come right. One feels that in some way it is all his fault. Perhaps what we hate in him is his utter unconcern when predicting rain. He seems to be above all human emotions. He never had a cricket match or a picnic set for the next day. To him a wet day means nothing. He would just as soon have it wet as fine. If only he would say, "I hate to have to tell you, and, believe me, if I could have my way, you would find a very different state of affairs, but to-morrow it is going to rain," we should feel better. It is his want of sympathy that maddens us. No man has a right to be so detached in his attitude toward a wet day.—London Globe.

**Porto Rico Windbreaks.**  
For raising oranges or grapefruit in Porto Rico windbreaks are absolutely necessary if they are to stand up to the trade winds, which blow continuously for nine months and which cripple unprotected trees.

**Pyramid of Cheops.**  
As modern skyscrapers are, not one has yet equalled the weight and massiveness of the pile of great stones which the swarming human ants of the Nile valley laboriously dragged together thousands of years ago until they had built the pyramid of Cheops. It would make a solid block 600 feet square and 330 feet high.

**Liquid Air.**  
If liquid air be frozen to the consistency of slush a strong magnet suspended over it will withdraw the solid oxygen, leaving the hydrogen, a jelly-like mass, in a vessel.

**The Alexandrian Library.**  
The library at Alexandria suffered plunderings on various occasions, but it remained practically intact until A. D. 650, when it was destroyed by the Saracens under orders of Caliph Omar. Thus disappeared a noble collection that had endured some 900 years.

**The Adirondack Plateau.**  
The average height of the Adirondack plateau is about 2,000 feet, though there are many peaks that are over a mile high.

**A Costly Prayer Book.**  
Queen Elizabeth used to carry about by her suspended by a chain of pure gold a book called "The Golden Manual of Prayer," a bulky volume of 300 pages bound in "hammered virgin gold." One side of this costly volume gave a representation of the judgment of Solomon, the other the brazen serpent on the cross in the desert.

**Galileo's Telescope.**  
Galileo's telescope, by which he discovered the satellites of Jupiter in January, 1610, is carefully preserved in the Museum of Physics and Natural History in Florence. Galileo's was the first practical telescope made.

## SATAN SANDERSON

Chapter 23

THE bell was tapping in the steeple of the little Catholic church on the edge of the town, and the mellow tone came clearly up the slope of the mountain where stood on time part of Prendergast's old time part of the lonely chapel, sentinel over the mounds of yellow gravel there marked his toll.

The returned wanderer had met with a distinct surprise in the town. As he passed through the streets more than one had nodded or had spoken his name, and the recognition had sent a glow to his cheek and a lightness to his step.

Since the daring feat in the automobile the tone of the gossip had changed. His name was no longer connected with the slanders of the town. The lock and key, constituted a material boom for Smokey Mountain and bettered the stock in its hydraulic enterprises, and this had been written on the credit side of the ledger. Opinion, so all powerful in a new community, had altered. All this he who had been the outcast could guess, but he felt the change with satisfaction.

"Till the sun was low he sat in the cabin thinking. At length he called the dog and fastened it in its accustomed place and began slowly to climb the steep ascent toward the Knob. When he came to a certain vine grown wall that met the main wall he turned aside. Here lay the spot where he had first opened with her, face to face. Here she had told him there was nothing in his past which could not be buried and forgotten.

As he parted the bushes and stepped into the narrow space beside the just ledge he stopped short with an exclamation. The place was no longer a tangle of vines. A grave had been lately made there, and behind it, fresh chiseled in the rock, was a statue—figure seated, chin on hand, as if regarding the nearby mound. As in a dream he realized that its features were his own. Awestruck, the living man drew near.

It was Jessica's conception of the prodigal son as she had modeled it in Aniston in her blindness, after Jessica's early return to the house in the summer. Daedalus Stiles had polished out the distant Knob as a spot in which to bury the dead man whose death had been observed. If it sorrow for his death had been deepened by the thought that the end had come suddenly for Daedalus Stiles, this sorrow had possessed on a comfort—that he had known at the last and had forgiven Hugh. Of this she could assure him when he returned, for she could not really believe—so deep is the heart of a woman—that he would not return. In the days of vigil she had found relief in the rough, hard work of the mill. None had intruded in that out of the way spot, save that one day Mrs. Halloran, led by curiosity to see the grave of the rich man whose while it had been to be buried on the mountain side, had found her at her work, and her Jessica had pledged to silence. She was no fool, was Mrs. Halloran, and to learn the name of the dead man was to put two and two together. Her motherly heart overruled to the girl who worked each day at that self-appointed task. Only the afternoon before Jessica had finished carving the words on the base of the statue on which the look of the startled man was now resting: "I will arise and go unto my father."

The guzer turned from the words, with quick question, to the mound. He came close and in the fading light looked at the name on the low headstone. So he had come too late! If he could only have learned the truth earlier! If he might only put back the hands of the clock!

Hours went by. At length he rose to his feet, his limbs cramped and stiffened, and made his way back to the lonely cabin on the hillside. There he found fuel, kindled a blaze in the fireplace and cooked his frugal supper. He thought of the last battle he had fought there once before, when tempest shrieked without—the battle which had ended in defeat. He thought of the will he had seen, now sealed with the great seal of death. He was the shorn beggar, she the benedictory. What duty she had owed his father was ended now. Desolate she might be—in need of a hand to guide and guard—but she was beyond the reach of penury. This gave him a sense of satisfaction. Was she there on the mountain at that moment?

At last he took Old Despair's battered violin from the wall and, seating himself in the open doorway, looking across the mysterious purple of the gulches, to the sky-line green with male stars, drew the bow softly across the strings. Through manifold variations the music wandered till at length, he had come to the hollowed wood an air that was an unconscious echo of a forgotten wedding day—"O perfect love, all human thought trans-  
cendeth thee."

For his use, its  
crystal purity  
and wonderfully  
"freak" taste  
made

## A PRETTY WEDDING

A very interesting event took place at high noon yesterday at the home of Mr. and Mrs. J. Slade, 554 Thirteenth street, when their only daughter, Miss Eva Elizabeth, was united in marriage to Mr. H. Sutherland Craig, manager of the Merchants' Bank, Wetaskiwin, by Rev. F. W. Patterson, pastor of the First Baptist Church. The bride looked lovely in her dainty wedding robe of rich ivory oriental satin with exquisite pearl garniture and embroidered tulle veil and orange blossoms and carried a beautiful bouquet of white bridal roses and ferns. The bridesmaid, Miss Heathcote of Wetaskiwin, wore a white lingerie frock with a bouquet of pink roses. The groom was assisted by Mr. Manly, also of Wetaskiwin.

## Fort George and Fraser Valley Land Co.

Snaps on City Lots, also Farm and Fruit Lands.

**790 First Street Phone 4173**

kin. The house was handsomely decorated with palms and ferns by Mr. Ramsay and the table decorations were prettily carried out in pink and white balsams and ferns from B. C. About 26 guests sat down to a delightful wedding breakfast, at which the centre of attraction was a very handsome three-tier wedding cake. Mr. and Mrs. Craig left on the afternoon train from Strathcona for Toronto, Chicago and eastern points. The bride's travelling dress was a lovely coat and skirt of grey, with embroidered silk waist and hat of grey and silver with blue plumes. The num-

ber of gifts from a large circle of friends testified to the popularity of the young couple. They will reside in Wetaskiwin.  
It takes more than polishing to make men shine.  
When a man always does what he wants no one wants what he does.  
Granting would not be so much of a sin if the grunders did not demand an audience.  
Much of our education is only an attempt to polish puffy.

## Granite Harvester Oil

For Reapers, Threshers, Plows, Harrows

Insures better work from the new machine and lengthens the life of the old. Wherever bearings are loose or boxes worn it takes up the play and acts like a cushion.  
Changes of weather do not affect it.

Gasoline and Kerosene Engines

**Standard Gas Engine Oil**  
is the only oil you need. It provides perfect lubrication under high temperatures without appreciable carbon deposits on rings or cylinders, and it equally good for the external bearings.

Steam Traction Engines and Steam Plants

**Capitol Cylinder Oil**  
delivers more power, and makes the engine run better and longer with less wear and tear, because its friction-reducing properties are exactly fitted to the requirements of steam traction engines and steam plants.

Traction Engines, Wagons, Etc.

**Mica Axle Grease**  
makes the wheel as nearly frictionless as possible and reduces the wear on axle and box. It ends axle troubles, saves energy in the horse, and when used on axles of traction engines economizes fuel and power.

Every dealer everywhere. If not at yours, write for descriptive circular to  
**The Imperial Oil Company, Limited**

## For Them

It is a recognised and undisputed fact that the young people about to be married are looking for some gift from you. They are on the threshold of their lives and one little act of remembrance will go far to cheer them along and make you a life-long memory in their lives. Now, can you forego them this pleasure when wedding presents of excellent quality can be obtained for such a small remuneration? Remember that you were young once and experienced the same joys they are now amidst. Just look at those suggestions below and **DON'T FORGET THEM.**

### HAS LOCATED TROUBLE

Mr. P. H. Davenport of the Stouffer Automobile Company of Chicago, who was detailed to make a report on the local telephone system, has gone to Calgary to open the new offices of the Calgary system.

Before going south Mr. Davenport asked the opinion as to what is

wrong with the Edmonton system, but he stated that he was not at liberty to make any statement until his report is sent to the proper authorities. Mr. Davenport will return next week to complete his inspection.

## About Town

The funeral of the late J. F. Johnson, postmaster of Nanay, will take place tomorrow afternoon at 2 o'clock from the residence of Rev. Mr. Campbell, 611 Heimick street, to Edmonton Cemetery.

The Saskatchewan River has risen three feet since last Monday on account of the continuous rain. The rising of the river is very opportune in that the lumbermen will be enabled to float the logs that were stranded on the banks at the first of the season. The river is still rising.

Don't forget the home-made food sale, under the auspices of the W. C. T. U., next Saturday afternoon, September 10th, at 1 o'clock, at the southeast corner of Seventh street and Jasper avenue. The proceeds are in aid of the Beulah Mission and the Travelers' Aid of the Y.W.C.A.

Jack! How is it that Mrs. Brown can get a quiet horse and drive her lady friends and you cannot get one safe for me. Well, my dear, Brown deals at Horner's Livery and you phone 234 and order one. Oh, Jack, What a dear.

The exhibit of grains and grasses at the Toronto exhibition has aroused such unusual interest that the Dominion Government is anxious to purchase it as part of their display of Canada's agricultural products for the Ontario. However, the Board of Trade has other uses for it and it is their intention to have Mr. J. L. Porter, who has had charge of it at Toronto, display them at other exhibitions in the East.

Mr. J. D. Hyndman and children, who have been spending the summer in Prince Edward Island, returned to the city yesterday. Mrs. Hyndman was accompanied by Miss Frances Davies, daughter of Mr. and Mrs. Dan Davies, Eleventh street.

## POISONING WAS ACCIDENTAL

A. E. Emmond, who was found in his shack in an unconscious condition on Monday afternoon and who was subsequently found to be suffering from severe burns in his throat as the result of taking permanganate of potash, is still unable to speak, but is sufficiently recovered to write.

Yesterday he gave out the information that he was getting some tea ready that afternoon and did not notice that there were some permanganate of potash crystals in the bottom of the cup. As soon as he had made the mistake it was too late, and had to be removed to the general hospital with his throat badly burned.

Mr. Emmond was using the potash for his hands. One of them he hurt with a crack hammer while following his calling, and he therefore procured some permanganate of potash, some of which happened to remain unnoticed in the bottom of the tea cup. He will be convalescent soon, but it will be some time before he can speak with ease.

J. Johnson, postmaster of Nanay, died at the general hospital yesterday of appendicitis.

Highest grade of sparkling cut glass at Ash Brothers.

## The YALE HOTEL

## MANY NEW HOMES

Permits for Dwellings Taken Out at Building Inspectors' Office

Applications for permits at the office of the Building Inspectors were received from Wm. Haire for an addition to his residence on Alberta avenue to cost \$4,500; from Muttar & Wright for two dwellings cost \$2,500 each, to be erected on Fifteenth St.; from A. Hunter for a dwelling on Victoria avenue, cost \$3,000; from Mr. Cate for a dwelling on Heimick, cost \$3,800, to be erected by Speers & McAlce.

## MR. BUTCHART HOME

Arrived in Town This Morning After Holidaying in the East.

Commissioner Butchart returned to Edmonton this morning after a six weeks holiday in the east. Mr. Butchart spent the most of the time in Bradford, Ont. While in Winnipeg, Montreal, and Toronto he made a study of the system of city financing in vogue in those cities and accumulated a knowledge of new methods.

## MRS. GORRINGE'S NECKLACE

So runs the title of the play to be produced by the Edmonton Amateur Dramatic Club on Friday and Saturday at the Empire Theatre. This is a new and original play by Henry Herbert Davies and combines light comedy with a tinge of drama. The play had a long and successful run in England only a few years ago and the amateurs are to be congratulated on handling this play. It will be well worth seeing.

## MACHINERY FOR THE BRIDGE

The machinery for the construction plant for the high level bridge is expected to arrive very shortly. In the meantime, car loads of cement to be used on the substructure are received continually.

The excavation work has been unfortunately delayed by the wet weather, but the work is being proceeded with today and it will be rushed to completion.

## THREE YEARS IN THE PEN

A young Italian shoe-maker only 18 years old, named S. Lavera, was brought up yesterday by Sergeant Piper of McLeod to serve three years in the penitentiary here.

He stabbed another man in a fit of passion and after an exciting chase, was caught and locked up, afterwards being sentenced by Judge Carpenter to three years.

Sergt. Piper remarked last night that Lavera was the 25th prisoner he had brought to Edmonton to serve a term.

## THREE ATTEMPTS TO SUICIDE

Manchester, Sept. 7.—Frederick J. O'Hara failed to commit suicide at Salford, although he made three attempts to do so. After drinking a quantity of poison he cut his throat and then threw himself out of a window fifty feet from the ground. He was remained on bail at the public court recently.

Three men were fined five dollars for drunkenness, in the police court this morning, and John Williams was fined \$2 and costs for driving over the sidewalk on Queen's Avenue. At 2.30 this afternoon the case of N. Menasse, the manager of Starland, will come before the magistrate.
